How to drill down and VIEW timesheets of everyone under my team?

1. Login to your Manager Portal.
2. Go to HOURS > TIMESHEET > Timesheets.
3. Use the circular tabs to get a list of timesheets w/ possible errors – missing, logs, undertime, tardiness, etc.
4. Your initial timesheet view will display employees directly reporting to you - this is your 1st level view.
5. To drill down to the next level view of timesheets of employees assigned to your direct reports or team leads click on the “view by” filter. The “view by” drop down will initially list employees reporting directly to you.
6. To drill down and view the 2nd level timesheets per team under “view by” click on the name of the team lead. The table will update with the timesheets of employees belonging to that team – this is your 2nd level view.
7. To drill down further to 3rd level view, click on the ”view by” filter again and the names of the employees under the team lead will be displayed. Click on the name of the employee and the table will update to display all employees under his team– this is your 3rd level view.
8. Use the breadcrumbs as a guide to which drilled down level you are viewing (which specific team).
9. Use the search field to search for names under the current level view you are at.
10. Use the date filter to limit view to a particular date.
